## COVID-19 Update and Resources 10/2 - 10/16

### PA & Federal Updates

PA saw 17,802 new cases since October 2nd, bringing the total case count to 179,086 (includes confirmed and probable cases) in all 67 PA counties. View a breakdown of cases by region, county, gender, ethnicity, etc. [here](#).

The Wolf Administration held a press conference on October 14th to discuss a fall resurgence of COVID-19 and continued mitigation efforts in Pennsylvania as the state reported more than 1,000 newly confirmed cases for more than 10 days in a row. Secretary of Health Rachel Levine, MD, noted that data indicates an increase in test positivity rates and hospitalizations. [Learn more](#)

The weekly update from Pennsylvania's COVID-19 Early Warning Monitoring Dashboard is available. It includes details on community transmission levels in each county and changes to Pa.'s COVID-19 travel recommendations. Learn more. Weekly contact tracing data is available [here](#).

The Pa. Department of Health announced rapid antigen test card distributions to CLIA-certified institutions – including long-term care facilities, primary care doctors, and many others - statewide. The tests will be used for targeted populations such as first responders, college students, and food workers. [Learn more](#)

Pa. DOH launches COVID Alert PA, the official mobile app by the Pennsylvania Department of Health (DOH) that uses the [Exposure Notification System \(ENS\)](#) provided by Apple and Google. [Learn more and download here](#). The Department's comprehensive [COVID Alert PA toolkit](#) is available for your use and contains an extensive catalog of marketing materials, including posters, social media posts, press releases, and other customizable content.

Dr. Levine announced new testing sites in Allegheny County and Dauphin County ([Learn more](#)), and in Northumberland County. [Learn more](#)

The Centers for Medicare and Medicaid Services (CMS) announced new actions to pay for expedited COVID-19 test results. [Learn more](#)

The U.S. Small Business Administration announced a simplified process for businesses to apply for Paycheck Protection Program loan forgiveness for loans of \$50,000 or less. [Learn more](#)

### PA DOH Updates

#### **ADVISORY: Guidance on Reporting Point of Care SARS-CoV-2 Test Results October 8, 2020**

- The U.S. Food and Drug Administration (FDA) has issued Emergency Use

Authorizations (EUA) for a number of COVID-19 point of care (POC) tests for rapid detection of SARSCoV-2.

- These POC tests may be used by both traditional healthcare providers (e.g., hospitals, outpatient providers) and by non-traditional settings who have appropriate CLIA Certificate to conduct this testing.
- All entities conducting these POC tests are required to report these results, including positive, negative, and inconclusive/indeterminate, to public health authorities through PANEDSS.
- A number of mechanisms have been established to ensure reporters can be compliant in providing the results of POC tests. Information regarding these reporting mechanisms are detailed in the full message below.

[View full document](#)

### **ADVISORY: Point of Care Antigen Test Use and Interpretation**

October 8, 2020

- The availability and use of point of care (POC) antigen tests to detect SARS-CoV-2 is increasing.
- The main advantage of using these antigen tests is the rapid turnaround time for results; however, these tests are not as sensitive as molecular tests (i.e., PCR).
- Some sites may be new to using these POC tests and, in order to ensure accuracy of results, facilities conducting these tests should become familiar with good laboratory practices. Some laboratory best practices and suggestions for preventing errors are included in this message.
- Individuals using POC tests should understand antigen test performance characteristics in order to recognize potentially false negative or false positive results and to guide patient management.
- Assessment of the person being tested which would include the likelihood they have the disease or were exposed to COVID-19 should be considered when interpreting antigen test results and assessing the potential need for additional testing.
- The following message is being disseminated to address questions associated with antigen tests and assist with the use and interpretation of POC antigen tests.
- While some information contained in this HAN may be useful for long term care facilities, separate guidance for using antigen tests and the associated public health response in these facilities has been previously disseminated. Long term care facilities using antigen tests should refer guidance disseminated in HAN-526.

## **APPLY NOW FOR CARES ACT PROVIDER RELIEF FUND NEW PHASE!**

### **CARES Act Provider Relief Fund: New Phase of Provider Relief Fund Opens for Applications**

Providers are encouraged to apply for the latest round of Provider Relief Fund (PRF) support.

Applications will be considered regardless of whether

your organization was previously eligible for, applied for, received, accepted, or rejected prior PRF payments. For this newest phase, funding will be allocated to providers based on assessed financial losses and changes in operating expenses caused by COVID-19. For more information about the Phase 3-General Distribution, please visit the [Provider Relief Fund webpage](#).

[Apply here](#) through November 6. Apply now, applications will be reviewed on first come first serve basis!

October / November 2020

### Provider Relief Fund

**NEW funding available!** Healthcare providers can now apply for additional payments from the Phase 3 General Distribution

Provider Relief Fund offers financial support to healthcare providers who have experienced lost revenues and/or expenses attributable to COVID-19.

**Up to \$20 billion**  
in payments to be distributed in the Phase 3 General Distribution

[Click here to apply!](#)  
Applications open Oct. 5, 2020

**Application & Payment**  
**Nov. 6, 2020** at 11:59 p.m. ET is the deadline to submit both your Taxpayer Identification Number (TIN) and all financial information.  
Please submit your application quickly to expedite payment process

Payment is based on:  

- Assessed revenue losses and expenses attributable to COVID-19
- 2% of annual patient care revenue (if not previously received)
- Prior Provider Relief Fund distributions

Recipients must attest to [terms & conditions](#) within 90 days of payment  
Distributions do not need to be repaid if providers comply with terms & conditions

For additional information, please call (888) 969-3322

**Eligibility**  
Apply for Phase 3 if you experienced a decrease in operating income attributable to COVID-19  
You are eligible to apply whether you were eligible for, applied for, received, accepted, or rejected prior PRF payment

You may be eligible if you are a:  

- Behavioral health provider
- Dental provider
- Home and community-based services
- Primary care or specialty practice
- And many others
